

- ✓ Long-life smoke alarm with 10 year lithium batteries
- ✓ Sealed-in batteries - for reduced maintenance and worry-free protection
- ✓ Hush feature allows nuisance alarms to be temporarily silenced (e.g those caused by cooking or steam)
- ✓ End-of-life warning signal - automatically notifies you that the alarm needs to be replaced after 10 years
- ✓ Adjustable mounting bracket for quick and easy installation
- ✓ Test/Reset Button
Tests alarm circuit operation

Product Description

This smoke alarm has sealed-in long life batteries that are designed to last the full 10 year life of the alarm. This means that you will never have to replace the batteries. It also has the hush feature that allows nuisance alarms (such as cooking or steam) to be temporarily silenced.

At least one smoke alarm should be installed on each level of the home and in areas close to bedrooms. A working smoke alarm provides the earliest possible warning of smoke or fire in the home and can double a person's chance of surviving a house fire.

There are many different types of smoke alarms with various features for enhanced usability.

Kidde recommends that for maximum protection both ionisation and photoelectric smoke alarms are installed in the home.

* Ionisation sensing alarms may detect invisible fire particles (associated with fast flaming fires) sooner than photoelectric alarms. Photoelectric alarms may detect visible fire particles (associated with slow smouldering fires) sooner than ionisation alarms.

Order Code	0910UK-C
Power Supply	Sealed-in lithium power cells for 10 years long-life protection
Temperature Range	0°C to +40°C
Humidity Range	Up to 93% Relative Humidity (RH)
Alarm Dimensions	144mm x 144mm x 50mm
Alarm Weight	0.26kg
Approvals	Approved by BSI to EN14604 / CE approved
Warranty	10 years
Dimensions (packaged)	215mm x 190mm x 50mm
Weight (packaged)	0.30kg
UPC Barcode	0-047871-059942
Case Quantity	3
Case Dimensions	202mm x 158mm x 296mm
Case Weight	1
ITF Outer Code	100-47871-05994-9
