- ✓ Unique Voice Alarm - tells you which danger has been detected
- ✓ End of Life Alarm Alerts user to replace the alarm after 7-years protection
- ✓ Peak level memory alerts you if dangerous CO levels were detected during your absence

Product Description

The Kidde 900-0122UK battery operated combination smoke and carbon monoxide alarm offers protection from the dangers of smoke and carbon monoxide in a single unit for added convenience.

The 900-0122UK has a unique voice alarm to help you to determine which danger has been detected - "Warning Carbon Monoxide" or "Fire Fire" will be said from the alarm.

These alarms have a fixing bracket and they are designed to be wall or ceiling mounted in the home.

They have a 7-year sensor life.

Carbon monoxide is a colourless, tasteless and odourless gas that is produced when fossil fuels such as coal, oil, natural gas, LPG, charcoal and wood are not burned efficiently. It can be produced from poorly maintained or badly fitted domestic heating appliances such as boilers, wall heaters, wood burners, blocked flues or exhaust vents.

The symptoms of CO poisoning include headaches, sickness, tiredness and muscle pain - all of which can easily be misdiagnosed as flu. It is therefore important to protect your family and home with a carbon monoxide alarm..

Order Code	900-0122
Power Supply	3 x AA batteries (as supplied)
Digital Display	No
Temperature Range	40°F (4°C) to 100°F (38°C) and -10°C to +60°C for storage or transport
Humidity Range	10%-95% relative humidity (RH)
Alarm Dimensions / Weight	155 x 155 x 45mm / 0.38kg
Life of Alarm	7-year sensor life
Approvals	CE approved
Warranty	5-years
In-pack Dimensions / Weight	282mm x 189mm x 45mm / 0.44kg
UPC Barcode	0784908010216
Case Quantity	3-pack
Case Dimensions / Weight	202mm x 158mm x 296mm / 1.4kg
ITF Outer Code	10084908010214
